Fruits and Nuts (Genome Mapping and Molecular Breeding in Plants)

Fruits and Nuts (Genome Mapping and Molecular Breeding in Plants)

"Fruits and Nuts" form the largest group among crop plants. Several constraints such as long life cycle have caused comparatively slow research progress in the past. The chapters on 20 fruit and nut crops authored by 56 renowned scientists from 12 countries include for the first time comprehensive reviews on a variety of fruits and nuts. The huge amount of information hitherto dispersed in journals is now available in a clearly structured reference work.
