The Art of Paper Folding for Pop-up Miyuki Yoshida

This is more than a book. Thirty pop-up sheets held together by two screws which not only hold the book together in a visually unique package but are also easily removable, offer a feast of useful pop-ups that can be used as greeting cards, hangings, decorations, or whatever your heart desires. Miyuki Yoshida, a professional paper engineer, created thirty sheets in a way that allows people to find their own way of enjoying the book. Each pop-up sheet is intricately designed using simple colors. The delicate paper-cutting and folding work changes its appearance depending on the angle from which it is seen. "You will see how a sheet of paper turns into a piece of artwork," Yoshida comments. Art of Paper-Folding for Pop-up also offers a growing number of paper-craft enthusiasts a font of inspiring folding and cutting ideas.
