"analisi asciutta e illuminante"

Adriano Prospero

Il fascismo si proclamò totalitario e corporativo, ma non fu interamente né l'uno, né l'altro. Pretese di erigere un nuovo Stato, ma riutilizzò abbondantemente elementi e residui dello Stato liberale. Autoritario e dittatoriale, concentrò il potere pubblico, ma accettò anche una sua limitata pluralizzazione. Incorporò gli organismi di resistenza economica, eliminò libere elezioni, creò un surrogato della rappresentanza politica, si valse di organizzazioni satelliti, ma ricorse ad amministrazioni parallele per gestire la crisi economica. Sabino Cassese, in questo libro che è, al tempo stesso, una storia delle istituzioni fasciste e una ricostruzione dei tipi di Stato cesaristi, esprime dubbi sul valore euristico della nozione di totalitarismo, esamina successi e fallimenti del corporativismo e propone un'analisi più complessa dei paradossi dello Stato fascista.
