When disaster strikes, calls, texts and emails don't work. Having an alternative way of reaching family and loved ones at these critical moments is essential. This comprehensive guide covers everything needed to be fully prepared for when the grid goes down, including the best types of radio for every disaster scenario from HAM radios (used by most search and rescue groups) to walkie talkies (small and easy to use, ideal for children). And since survival communication goes beyond the short term, there are also instructions for longer term solutions like hand cranked or solar powered batteries.
