The Obama Collider Iain Clark

Tod Engel—a right-wing commentator for the fledgling VIX NEWS channel—has one overarching goal: remove Barack Obama from office at all costs.

After a chance meeting at his favorite watering hole with an overambitious, toupee-scrunching literary agent by the name of Jeffrey Stills, Tod decides on a course of action that could prove fateful. He allows Stills to have a book ghostwritten under his name with the provocative title *Dracubama*, (a supposedly fictional account of the President's blood ties to a West African vampire called the Obayifo).

Spurred on by the owner of VIX NEWS CORP. (New Zealand tycoon and media mogul Rob Roy Macgregor), and Macgregor's fast-food addicted right-hand man Roger Altar, Tod goes to work on his right wing base by holding a series of town hall meetings that has the "hoopleheads" baying for blood and the head of Barrack Hussein Obama. But just when the heat in the kitchen is getting a little too hot for Tod and his right wing paymasters to bear, the arrival of a French physicist by the name of Pierre de Coulomb, with information that this world is not quite what it seems, sets Tod off on a picaresque journey that can only lead to one final, and reality-challenging, conclusion.
