Hot Prowl

Jack Gray

Hot Prowl Jack Gray

Between 1976 and 1979, a prolific serial rapist prowled northern California's leafy neighborhoods and affluent suburbs in the dead of night. When the rapist found a home to his liking, he would break in, confront the residents at gunpoint, then rape the female while her male partner lay bound and helpless nearby. In 2001, a forensic scientist with the Orange County Sheriff's Department linked the rapist's DNA to ten murders which occurred in southern California during the 1980s. Detectives dubbed this offender the East Area Rapist-Original Night Stalker (EAR-ONS), but despite unprecedented investigative efforts, his identity remains a mystery. Drawing on years of academic research, Hot Prowl offers a comprehensive analysis of the EAR-ONS's life and crimes.
